

# NUCLEAR MEDICINE SHORT COURSE

March 13-15, 2009

The University of Tennessee will offer a Nuclear Medicine Short Course March 13-15, 2009. The course is intended as a general review of nuclear medicine. It will include: reviews of the basic principles of nuclear medicine and image processing, common nuclear medicine imaging procedures, interpretative principles and case examples. The majority of topics will be small animal applications, but the course will also include a review of equine nuclear medicine.

## Program Participants:

- Dr. Federica Morandi, Course Coordinator - email: fmorandi@utk.edu
- Dr. Gregory B. Daniel

## Registration fee includes:
