

Judging Criteria

Comparative & Experimental Medicine
Research Symposium
June 17, 2008

The presenter will be compared to other new investigators whom the judges have seen give presentations at representative professional meetings.

Analysis & Organization (60%): Presenters will be judged on sufficiency of background information provided, clarity of objectives/hypotheses, organization of data presentation, speaker understanding, etc.

Delivery (40%): Presenters will be judged on delivery of talk (speed, clarity, eye contact, poise, recitation), quality of graphics, ability to answer questions, confidence
